

Autism Society Manitoba and MbTelehealth are pleased to present a panel of

EXPERTS IN THE FIELD OF ASD/AS

Autism Spectrum Disorder/Aspergers' Syndrome

Wednesday March 10, 2010

6:30pm

The session is live and interactive hosted in Winnipeg, broadcast directly to the RHA in your city or community. There is no charge for the event. Please feel free to share this information with anyone who may benefit from attending.

Some examples may be: Do you think in pictures? How do sensory issues effect you? What do you do when you get anxious? Do you have friends? What are your plans for the future? How does a classroom setting impact your learning? Do you have a different learning style? Do you mind getting extra help from time to time? Who has provided the most support other than your parents and family?

On Wednesday March 10th a panel of experts will discuss **Life and Living with ASD/AS.**

Our panel of adolescents and young adults diagnosed with Autism, PDD-NOS and Aspergers' Syndrome will answer some of your questions as life pertains to themselves on various topics: school, social, sensory, communication issues etc.

This is a MUST ATTEND for all parents, teachers, clinicians, educational and community support staff.

The session is sure to be one of the most valuable that you have ever attended.
